

Question	Answer
<b>1</b> What is SmartJCL?	SmartJCL is a modern tool to check z/OS environments for JCL errors. It is highly efficient yet low-cost.
<b>2</b> We already use another checking tool. Why do we need SmartJCL?	SmartJCL is a cost-effective alternative. (You are probably paying too much for your current solution.)
<b>3</b> Which products can be replaced with SmartJCL?	For example: ASG-JCL Prep™, ASG-Job/Scan™, ASG-ProJCL™, CA JCLCheck™, SEA JCL PlusPack™, RES J-MAN™
<b>4</b> Does SmartJCL accommodate user exits to implement site rules?	Yes, during the pre JCL expansion phases and post expansion phases, using the SRI-REXX feature.
<b>5</b> Can SmartJCL scan remotely across sysplexes and utilize RDZ?	Yes, the "Remote" module is an optional feature and there is also an Eclipse plug-in for RDZ or Datastudio
<b>6</b> Can SmartJCL simulate catalog actions?	Yes, SmartJCL supports the simulation of creation and deletion of files.
<b>7</b> Does SmartJCL support variable substitution?	Yes, SmartJCL supports scheduler variables and JCL symbolics.
<b>8</b> Can SmartJCL change JCL statements to conform to our site standards?	Yes, using the SRI-Reformat feature.
<b>9</b> Does SmartJCL offer user and site-specific messages?	Yes, this is included in the base product.
<b>10</b> Does SmartJCL support mass changes?	Yes with the SRI-Reformat feature.
<b>11</b> What other scanning is provided?	SmartJCL scans and verifies most commonly-used utilities, such as IDCAMS, DFSORT/SYNCSORT, IEBCOPY, PDSFAST, IEHPROGM, ADRDSSU (COPY command) for proper control card syntax.
<b>12</b> Does SmartJCL integrate with my change management product?	Yes, SmartJCL supports most major change management tools, including our own ProcMan.
<b>13</b> What pricing models are available for SmartJCL?	SmartJCL is priced by the number of MIPS/MSUs that you currently have and the modules you require. There are no price increases for CPU upgrades in the future.
<b>14</b> What if we don't have time to learn a new product?	SmartJCL is intuitive and very easy to use. SEGUS can provide remote training via the internet, if required.
<b>15</b> Is it possible to trial the product? How long will it take to install SmartJCL?	You can trial the product for 30 days risk-free. Initial installation will generally require only a couple of hours from start to finish.
<b>16</b> Does SEGUS offer conversion services?	We can assist remotely with converting standards, mass change scripts and integration with your change management system, if required.
